

Forest & Bird

TE REO O TE TAIAO | *Giving Nature a Voice*

MONTHLY MEETING

Tuesday 13th February, 2018 @ 7.30 p.m.

PALMERSTON NORTH CITY LIBRARY
GEORGE STREET ENTRANCE, Palmerston North
(Please note change of venue)

"What is a wetland?"

Lake Pauri, near Waitotara, which is full of plants filtering water and locking up nutrients and other chemicals.

Speaker: Jill Rapson, Ecology, Massey University

Jill will introduce us to wetlands (yes, they do have "fresh" water in them!). Then, she will take us on a quick tour of the types of wetlands both in NZ and internationally (mainly from a vegetational point of view).

She will show you a few of her favourite weird wetlands from around the world, and comment on the status of wetlands and their conservation in the Manawatu region.

If you would like to stay in touch, please sign up to our Mailing list on our website: www.naturesvoicemanawatu.org.nz
