“NATURE IN CRISIS”

Speaker: Adelia Hallett, Forest and Bird Climate Advocate

Adelia will talk about ‘Nature in Crisis’. The climate is changing; New Zealand is already 1degree warmer than it was at the start of the 20th century. It’s affecting people and New Zealand’s unique native species, and by the end of the century, the impacts could be catastrophic.

But it doesn’t have to be that way.

The good news is that by protecting nature from the impacts of climate change, we can also protect ourselves.

All welcome. Gold coin donation appreciated
